

MAYANK SUJAT PUROHIT

ZIRAKPUR, 140603 | 07889048812

mayank.prohit@gmail.com | <https://fervent-curie-b4a738.netlify.app/>

To learn practical applications of academically gained concepts and concepts learned from professional experience in the field of Information Technology by working ethically, in a dynamic team environment which fosters professional and personal growth. Worked in the field of **cloud oracle.Spring boot, Angular** and looking forward to work in field of database/AWS/web applications.

CORE COMPETENCIES

1. Spring boots
2. Angular.
3. Libraries TensorFlow, keras
4. Data analysis tool
5. Machine learning algorithms.
6. Fusion Benefit Management (java)
7. Fusion Reporting – OBI(sql).
8. Tools – FSM, Fast Formulas, HCM Extracts, OBI (sql, java).

EXPERIENCE

Business technology analyst

Feb 2017 - Oct 2018

Deloitte consulting, Gurugram

Bank of America – My key responsibilities include:

- Gather client requirements, understand business processes and draft Lean Specs.
- Developed objects related to Core Database HCM extracts.
- Develop, test and deliver Database BI reports(java,jasper).
- Database reports BI(jasper ,rest api)
- Fast formulas using java.

Project-Hilton Worldwide - My key responsibilities include:

- Analyses of functional design documents for technical feasibility.
- Understand business processes and draft technical design documents based on the functional documents.
- Delivered objects related to Core module.
- Develop, test and deliver api's.
- Integrations of Generic Extract, Core report using Oracle BI (used for analytics purpose)

Java/Angular Developer

Aug 2021 - present

KPMG INDIA (client), Noida

KBIDS – My key responsibilities include:

- Gather client requirements, understand business processes and draft Lean Specs.
- Developed objects related to Core functionalities.
- Develop, test and deliver Database BI reports(java, jasper).
- Database reports BI(,rest api's)

NFT - My key responsibilities include:

- Analyses of functional design documents for technical feasibility.
- Understand business processes and draft technical design documents based on the functional documents.
- Delivered objects related to Core module.
- Develop, test and deliver api's.

OTHER PROJECTS

FACE RECOGNITION

Website built on the concepts of express, NodeJS and ReactJS. One can go to the website and make use of face detection and video detection resources. Refer to portfolio website: <https://fervent-curie-b4a738.netlify.app/>

CROWN CLOTHING

E-Commerce website built on the concepts of react, firebase (**MONGODB**), Restful API'S. People can visit and buy stuff of their liking. Refer to portfolio website: <https://fervent-curie-b4a738.netlify.app/>

ROBOFRIENDS

A simple React based application to demonstrate how to interact with rest APIS. Refer to portfolio website: <https://fervent-curie-b4a738.netlify.app/>

MACHINE LEARNING PROJECTS (data science domain)

1. Price predictor
2. heart diseases predictor
3. and much more. refer to the jupyter notebooks link provided in the portfolio web site: <https://fervent-curie-b4a738.netlify.app/>

SKILLS

Intermediate in: Angular, Spring boots, java

Basic in: AWS, NumPy, pandas, JavaScript, TypeScript python scikit learn.

EDUCATION

B tech - Computer science engineering

Aug 2012 - May 2016

Punjab Technical university Giani Zial Singh campus Bathinda Punjab, Bhatinda

Scored 64.2% in my degree.

12th

Scholars Field public school, Patiala Punjab

Scored 61%

10th

Dayanand public school Nabha Punjab

Scored 72.14%
